NUMBER OF HOUSEHOLDS WHO LEFT CAMP SETTINGS PER CAMP/SITE

Between 18 and 30 October 2020, DTM tracked 436 households (2,370 individuals) who left camps and large informal sites for non-camp settings. These departures have occurred from Baghdad, Kerbala, Anbar and Diyala Governorates, after the closure of the informal site of Al Shams Complex in Baghdad, the formal camps of Al-Ahel and Al Nabi Younis in Baghdad, Al Kawthar in Kerbala, and Muskaar Saad in Diyala, and the planned closure of Habbaniyah Tourist City (HTC) in Anbar.

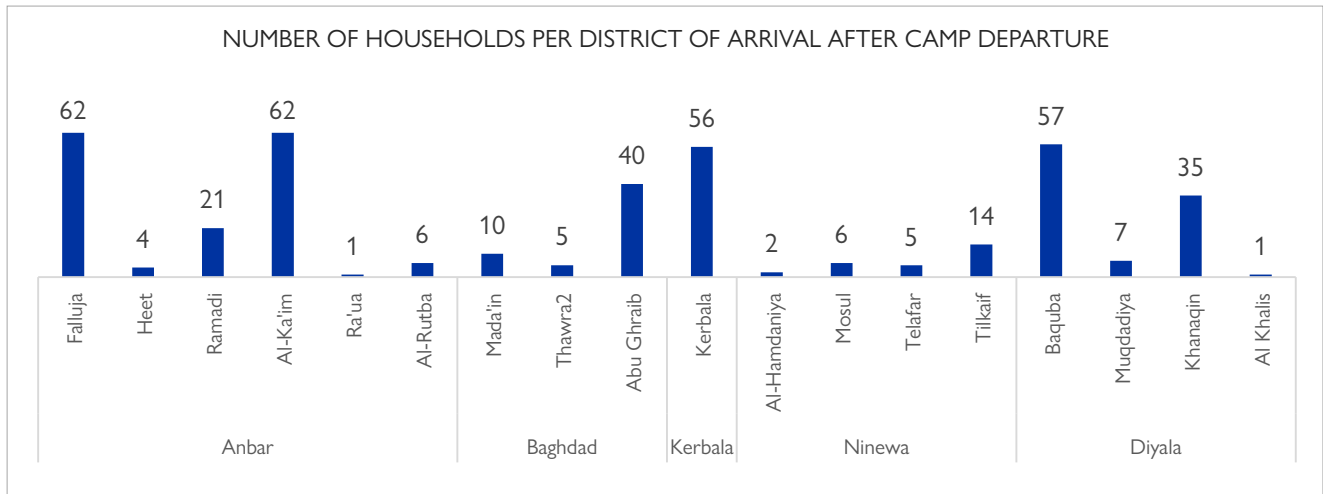

1 Unless specified otherwise, camp settings include both formal camps and big informal sites.
 2 In most cases, data on the number of individuals departing camps and arriving to new locations was collected. Where this could not be collected, the number was estimated based on an average household size of 6.
 3 Calculations based on the Iraq CCCM Camp Master List and Population Flow, September 2020.
 4 Al Shams Complex is an informal site and therefore these households are not included in the overall number of in-camp IDPs in Baghdad.
