## MOVEMENT OF CAMP IDPs

DATA COLLECTION PERIOD: 1 APRIL – 24 OCTOBER 2024

DISPLACEMENT

OCTOBER 2024

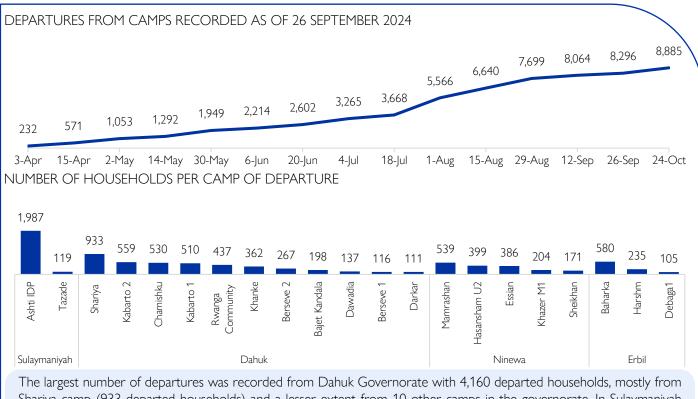

In January 2024, the Iraqi Council of Ministers announced the closure of the remaining 23 IDPs camps in the Kurdistan Region of Iraq by the end of July 2024. The International Organization for Migration's (IOM) Displacement Tracking Matrix (DTM) in Iraq launched a tracking tool in April 2024 to track the number of families leaving the camps and their main characteristics.<sup>1</sup>

## DEPARTURES: 8,885 Households

As of 24 October 2024, DTM recorded the departure of 8,885 families from camps with an increase of 589 families since last round on 26 September 2024. Some families left camps and arrived in their new location in March 2024, before the start of data collection in April 2024.

Shariya camp (933 departed households) and a lesser extent from 10 other camps in the governorate. In Sulaymaniyah Governorate, both Tazade and Ashti IDP camps were formally closed by the Government of Iraq on 19 March and 11 July 2024, respectively, with 2,106 families departed. Departures have also been recorded from camp settings in Ninewa (1,699 departed households) and Erbil governorates (920 households).

#### PERCENTAGE OF DEPARTURE

	Sulayma niyah	Ashti IDP	100%	
		Tazade	100%	
	)	Shariya	39%	
		Kabarto 2	24%	
		Chamishku	13%	
		Kabarto 1	22%	
	~	Rwanga Community	19%	
	Dahuk	Khanke	14%	
Total in camp resident HHs		Berseve 2	23%	
		Bajet Kandala	12%	
		Dawadia	40%	
Percentage of families who departed		Berseve 1	14%	
		Darkar	24%	
		Mamrashan	36%	
	a	Hasansham U2	69%	
	Ninewa	Essian	16%	
	Z	Khazer M1	29%	
		Sheikhan	26%	
Λ		Baharka	63%	
$\backslash$	Erbil	Harshm	93%	
$\sim$		Debaga 1	8%	

1 This tool tracks the departures facilitated by the Ministry of Migration and Displacement (MoMD), spontaneous departures and the departures facilitated by the Facilitated Voluntary Movement programme of IOM.

## MOVEMENT OF CAMP IDPs

**ARRIVALS:** 

6,279 Households

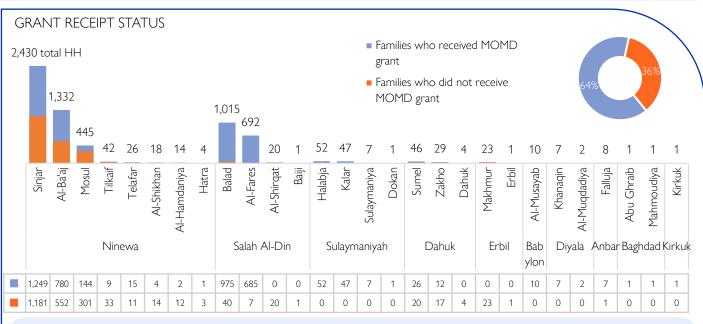

DATA COLLECTION PERIOD: 1 APRIL – 24 OCTOBER 2024

As of 26 September 2024, DTM recorded the arrival of 6,279 families out of the total 8,885 who departed from camps (70%). Most families arrived to Ninewa (69%) and Salah al-Din (28%) governorates.

GLOBAL DATA INSTITUTE

OCTOBER 2024

TRACKING MATRIX

Out of the 6,279 arrived households, key informants reported that 36 per cent did not receive the MoMD grant yet, while the rest received a return, local integration or relocation grant. The high number of families who did not receive the grant, particularly the families arriving to Sinjar, Al-Ba'aj and Mosul districts is due to the backlog in the registration process at the Dahuk MoMD. As a result, MoMD is prioritizing those who returned earlier, leading to delays in grant distribution. Additionally, since 12 July 2024, MoMD in Dahuk has halted the approval of return facilitation letters.

Most households (83%) returned to the place where they used to reside before the 2014-2017 crisis forced them to flee (returnees). However, 17 per cent did not return to their location of origin and are considered secondarily displaced IDPs.

Most of the arriving IDP households (65%) moved to apartments or houses in good condition and 13 per cent of moved to apartments or houses that are damaged or in poor condition. In addition, 7 per cent (75 IDP households) are being hosted by other families and another 5 per cent (59 IDP households) are staying in rented housing. Most returnee households are either have returned to their usual residence in good condition (34%), being hosted by other families (24%) or stayed in informal settlements (19%). In addition, 14 per cent returned to apartments or houses that are damaged or in poor condition.

### SHELTER TYPE BY POPULATION GROUP

IDPs	Apartment/house (not owned)(habitable)						65%		
	Apartment/house (not owned)(uninhabitable)		13%	5					
	Host families								
	Rented housing								
	Unfinished/abandoned building	3%							
	Own property								
	Informal/random/irregular settlements or collective shelters		17%						
	Camp								
	Tent/caravan/makeshift shelter/mud or block house	1%							
RETURNEES	Habitual residence - good condition					34%	83%		
	Host families			2	24%				
	Informal/random/irregular settlements or collective shelters			19%					
	Habitual residence - damaged/destroyed		149	%			IDPs Return		
	Unfinished/abandoned building	4%							
	Tent/caravan/makeshift shelter/mud or block house	4%							
	Rented housing	1%							
	Apartment/house (not owned)(habitable)	1%							
	Apartment/house (not owned)(uninhabitable)	<1%							

# MOVEMENT OF CAMP IDPs

DATA COLLECTION PERIOD: 1 APRIL – 24 OCTOBER 2024

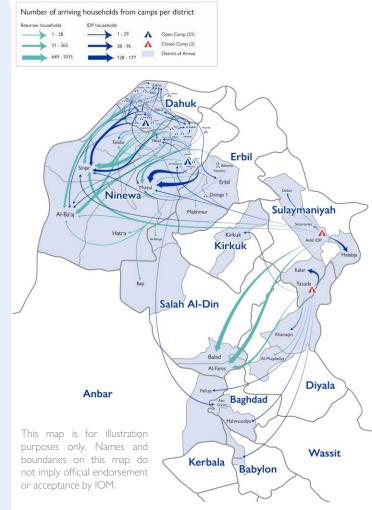

### FLOWS FROM CAMPS TO DISTRICTS OF ARRIVAL BY POPULATION GROUP

The largest return movements were recorded from Ashti IDP camp in Sulaymaniya to southern districts in Salah al-Din: Balad District (1,015 returnee families) and Al-Fares District (649 returnee families). Additionally, 74 families left Tazade camp in Sulaymaniyah Governorate for locations other than their areas of origin. Of this group, roughly two thirds went to Kalar District in Sulaymaniyah Governorate.<sup>2</sup>

In Dahuk Governorate, the largest movements were recorded from Shariya camp (549 families), most of whom (77%) returned to their area of origin in Sinjar and Al-Ba'aj districts in Ninewa Governorate. The remaining share did not return to their location of origin (23%) and are now considered to be secondarily displaced, relocated or locally integrated.

In Ninewa Governorate, the largest movements were recorded from Hasansham U2 Camp (368 families). Most households who left Hasansham U2 Camp did not return to their location of origin (56%) and are now considered to be secondarily displaced, mostly in Mosul District. The remaining share have returned to their area of origin, mostly in Ninewa Governorate.

DTM recorded 14 families who voluntarily moved from camps in Dahuk Governorate to other camps, including 9 families moved to Berseve 1, Kabarto 1, Kabarto 2 or Chamishku within the same governorate and 5 families moved to Mamrashan, Essian or Sheikhan camps in Ninewa Governorate. Additionally, 2 families moved from Mamrashan camp in Ninewa governorate to Chamishku camp in Dahuk Governorate.

### TOP FIVE DISTRICTS OF ARRIVAL BY CATEGORY OF SEVERITY BASED ON RETURN INDEX ROUND 22

Some arriving households have severe living conditions as indicated by Return Index data. Al-Fares and Balad districts in Salah al-Din Governorate, alongside Sinjar and Al-Ba'aj districts in Ninewa Governorate, continue to suffer from residential destruction and poor access to basic services, as well as the limited capacity and resources of local authorities to respond to the needs of this new arrivals.

District	Governorate	Category of severity	Number of returnee households in district	Number of returnee households from camps to district		
Sinjar	Ninewa	High 🔴	22,483	1,955		
Al-Ba'aj	Ninewa	High 🔴	10,954	1,304		
Balad	Salah al-Din	High 🔴	13,066	1,015		
Al-Fares	Salah al-Din	High 🔴	3,717	692		
Mosul	Ninewa	Low 😑	179,917	132		

### METHODOLOGY

IOM DTM in Iraq launched a tracking tool in April 2024 to track the number of people leaving camps and their main characteristics. Data are collected by IOM's Rapid Assessment and Response Teams (RARTs) through field visits, phone interviews with households and close coordination with partners that include local police, MoMD, Barzani Charity Foundation (BCF), Directorate of Migration and Crisis Response in Duhok (DMCR), UNHCR and IOM's Durable Solution Programme. Data are gathered continuously and reported every month.
